SD means Secure Digital

## General

This document contains important information on the installer for the PSS4000 firmware on a PMI 5.

PMI 5 includes the following products:

- ▶ PMI with "5" or higher as the first digit in the device name (e. g. PMI 526)

The installer can be found in the following file:

PSS\_4000\_PMI\_5\_<Versionsnummer>\_Installer.zip

The installer is required for the first installation of the PSS 4000 firmware on a PMI 5.

The "System requirements" section describes the requirements that PMI 5 has to fulfil so that the PSS 4000 firmware can be installed.

Information on how to proceed during installation can be found in the "System description PSS 4000" (PSS\_4000\_System\_Description\_1001467-<version number>.pdf).

Information on the new functions provided by the PSS 4000 firmware, and important information on the firmware can be found in the "Product Modifications PSS 4000" (PSS\_4000\_Product\_Mod\_1001740-<version number>.pdf).

## System requirements

The PSS 4000 firmware can be installed on a PMI 5 with the following system requirements:

- ▶ min. 50 MB free Flash memory.
