PNOZ X

The PNOZ X product series was launched on the market back in 1996 and has done well in the last years. Due to the availability of individual components and the partly very low quantities of the individual variants, as well as the associated higher production costs, we have decided to streamline the PNOZ X portfolio in the medium term.

This process of streamlining the portfolio has already begun and will continue over the next few years. All affected item numbers are variants with very low quantities and this discontinuation affects 53 article numbers.
