Safe Motion from Pilz now also for PROFINET

Ostfildern, 23.11.2015 -

Pilz GmbH & Co. KG
Felix-Wankel-Straße 2
73760 Ostfildern
Germany
<http://www.pilz.com>

Safe drive solutions from Pilz Pilz PMC (Pilz Motion Control) now have an interface also for PROFINET. This new communication connection is available for the servo amplifiers PMCprotego D and PM Ctendo DD5. With the safety card PMCprotego S, PMCprotego D can be additionally expanded with Safe Motion functions. Safe Motion reduces setup times and maintenance costs and so increases productivity.

PMCprotego D and PM Ctendo DD5 can be used alongside PROFINET in all common fieldbus systems. The interface card is simply plugged into the servo amplifier for almost all relevant fieldbus systems. Thus, the user can save investment costs with the interface for PROFINET network. Pilz servo drive technology is open for individual solutions, the servo amplifiers can practically be integrated in each automation environment.

Pilz also provides support from the safe drive configuration through to commissioning with a comprehensive range of services also for PMC.
