## **Global professional network for safe automation - Pilz System Partner Programme - worldwide**

Ostfildern, 02.07.2019 - **With a System Partner Programme, the automation company Pilz is increasing the presence of its products and solutions worldwide: In future, customers will also be able to obtain complete safe automation technology solutions from Pilz via selected, certified partners.**

System partners are independent from Pilz. They support machine manufacturers or operators when implementing automation projects. This ensures that customers receive integrated solutions that combine the system partner's engineering accomplishments with Pilz's safety expertise: Pilz system partners are at home in a wide range of industries. So the right system partner is available locally for each of the customers' requirements.

### **From challenges to solutions**

The services available from system partners include support for customers when implementing safe automation concepts, from product selection through to system integration and validation of machines. System partners cooperate closely with Pilz. They are well acquainted with the use of [Pilz products and systems](#) and provide a local service for customers. With its wide range of [safety and automation services](#), Pilz adds to the whole machine lifecycle.

### **Certified partners**

Pilz has a close, long-term cooperation with its system partners: The programme is built on technical support and qualification from Pilz, support in project management and high-quality certification. Partners are bound by strict specifications and are audited by Pilz at regular intervals. Continuous qualification is a central part of the System Partner Programme. Training on current technologies, Pilz products and international safety standards are a fixed part of the programme and a prerequisite for certification.

Further information on the Pilz System Partner Programme is available [here](#).

**Caption:** With the Pilz System Partner Programme, from challenges to solutions: System partners are Pilz-certified companies that offer complete solutions with Pilz product and systems.
