Virtual exhibition at Pilz - All our innovations online!

Pilz GmbH & Co. KG
Felix-Wankel-Straße 2
73760 Ostfildern
Germany
<http://www.pilz.com>

Ostfildern, 08.05.2020 - **Pilz will be presenting its "Spring" exhibition highlights and innovations in a virtual exhibition from 26 - 28 May. In addition to a comprehensive conference program including presentations, online visitors to the exhibition can also use the forum to exchange views directly in person with Pilz experts. Pilz offers journalists and editors the opportunity to be fully informed about the latest technical and corporate issues via its virtual "Pilz Press Area".**

The virtual Pilz exhibition will focus on safe automation solutions for "Industrial Automation", which consider machinery safety and industrial security in equal measure, controlling access and operating mode selection equally, for example.

"As exhibitions and events have been postponed or cancelled altogether due to the Covid-19 pandemic, we decided to organise our own virtual exhibition. For us, the health and safety of our staff, customers and visitors is our number one priority," says Horst-Dieter Kraus, Vice President Marketing and Communications at Pilz.
