Digital event from Pilz covering current trending topics in safe automation - "Pilz Automation Days" all about safe automation

Ostfildern, 07.04.2022 - **With the digital-format "Pilz Automation Days" from 17 - 19 May 2022, the automation company is staging a multi-day event: delegates benefit from information on current topics around "Safety, security and automation". The "Automation Days" have an international focus and provide a platform for a comprehensive exchange with Pilz experts.**

What does the future hold for machinery safety? Pilz will provide the answers in the keynote speech and in other presentations. The latest developments in "Safety and security" and "Updates to the functional safety standards" (Machinery Directive/13849/62061) will be presented, along with current automation solutions for the packaging industry and intralogistics. In this context it's about holistic safety concepts for safeguarding of gates and access control, for example. The digital event is rounded off with a virtual discussion and interactive exchange with the experts.

Customers and interested parties can use the link below to register for the "[Pilz Automation Days](http://www.pilz.com/automationdays)". All scheduled presentations will be streamed live worldwide in both German and English, three times a day in accordance with time zones.
